CUSTOM ORTHOSIS MADE TO MOLDS AND MEASUREMENTS

The Bremer Group Company recommends that practitioners consider ordering a Custom VertAlign® orthosis for patients with non-standard anatomy or with significant degrees of thoracic deformity.

The following measurements for a custom orthosis made to molds and/or measurements, are required to ensure the appropriate Custom VertAlign is created for your patient. Simply complete the following form and fax it to The Bremer Group Company at 904-645-0990 or ship it with your cast or mold. For further assistance please call customer service toll free at 800-428-2304.

Please circle at least one, more where needed, in each category.
